

Sealing washer

Application

The flat seal between the sealing plate and the extrusion end or a sealing washer between the junction plates and the side of the extrusion guarantees a seal up to 6 bar.

Specification

Black nitrile rubber
70 shore A

Junction plates

Application

High pressure junction plate for side connections up to 6 bar. The thread for the junction is normally tapped directly into the side of the extrusion. No junction plates are required for side connections to the 40x80 extrusion.

Fixing kit*

Screws + threaded plates

Specification

Al, anodised in natural colours
1/4" gas connection
