

Aluminium filler strip

Application

These aluminium strips can be used to blank off the longitudinal slots on all extrusions with a base of 40, 45 and 50. They are extremely easy to cut to length using tin snips or shears. They can be supplied at short notice in any RAL colour in addition to the standard colours (natural anodised or black powder coated).

Specification

Aluminium 0.8x 10
anodised or black
anodised with millimetre scale

Order data	Order number	
Aluminium filler strip	anodised	mm-scale
L = 1000 mm		A39-16
L = 2000 mm	A39-17	A39-18

Aluminium sealing extrusion 50/40/30

Application

The grooves of the construction profiles are undoubtedly very practical. With certain constructions, however, they disrupt the appearance and attract dirt. The cover profiles made of aluminium facilitate a closed appearance despite maximum flexibility offered by the open grooves. Dirt can thus no longer be deposited either.

Specification

Aluminium anodised

Measurement data

Base	H
50	14.5
40	10
30	6.7
